WHY CHOOSE US?

At Technifuse, we don't just build apps, we engineer high-converting digital mobile experiences that sync perfectly with your Shopify store to drive sales, brand equity, and long-term growth.

OUR TECH STACK

MODERN, FAST, & SCALABLE

FRONTEND & APP FRAMEWORK

React Native (iOS & Android): True native performance with a single codebase. Smooth animations, rapid load times, and a premium feel.

BACKEND & APIS

Node.js, GraphQL & Shopify API: Real-time data synchronization. Blazing fast queries ensuring your catalog and inventory are always perfectly matched.

ENGAGEMENT & NOTIFICATIONS

OneSignal & Firebase: High-deliverability push notifications, deep linking directly to products, and automated abandoned cart recovery flows.

DESIGN & UX

Figma & Core Web Vitals: Pixel-perfect UI designed specifically for mobile commerce. A/B tested layouts for maximum add-to-cart rates.

ANALYTICS & TRACKING

Mixpanel, Amplitude & Google Analytics: Deep user journey mapping. We track every tap to understand behavior and continuously optimize the sales funnel.
